

LRIT CONFORMANCE TEST REPORT

Four simple steps to certification

1

Once your transceiver has passed the Conformance Test, refer to www.lrit.com/testing_asp.html to find the list of flags we certify for. If your flag is issuing Conformance Test Report (CTRs), please contact your Flag directly. Pole Star will automatically forward all successful test results to your flag.

2

If we certify for your flag, send your CTR order form (www.lrit.com/testing_asp.html) to lritcert@polestarglobal.com.

3

Once we have received your request, we will send you an invoice.

4

Your LRIT Conformance Test Report will be dispatched as a scan by email, and as a hard copy by courier within 3 days of receipt of payment.

How do I get a Conformance Test Report?

Pole Star can issue LRIT Conformance test reports (CTRs) on behalf of most flags. If we certify for your flag, complete and send your certificate order form (www.lrit.com/testing_asp.html) to lritcert@polestarglobal.com.

If your flag is issuing CTRs directly, Pole Star will automatically forward all successful test results to your flag.

CTRS take up to 3 working days to issue and are a mandatory requirement for your radio survey, so please ensure you order your certificate as soon as possible.

If you need an urgent request, please ask about our FAST TRACK service.

Information on survey and certification

It is important to note that an existing ship safety radio certificate does not confer LRIT compliance on the ship. MSC.1/Circ.1307 regarding Guidance on the survey and certification of compliance of ships with requirement to transmit LRIT information states that compliance of the shipborne equipment with the regulation should be demonstrated by the equipment being:

1. of a type approved by the Administration in accordance with the provisions of regulation V/19-1 and section 4 of the revised performance standards; or
2. certified by the Administration as meeting the requirements of regulation IV/14 and satisfactorily completing a conformance test; or
3. certified by the Administration as meeting the requirements of IEC 60945 (2002-08) and IEC 60945 Corr.1 (2008-04) on Maritime navigation and radiocommunications equipment and systems – General Requirements – Methods of testing and required test results and satisfactorily completing a conformance test.
